SUMMARY: I have been working professionally as a front-end web developer for the past three years. During that time, I have been working with advertising agencies helping develop digital products for a variety of clients.

EDUCATION: **Rochester Institute of Technology**
Bachelor of Science in Information Technology
Concentration in Web Development

Rochester, NY
May 2013

WORK EXPERIENCE:

Phenomenon

Front-end Development Contractor

Los Angeles, CA

Feb-Apr 2016

- I helped develop for **currencycap.com**, **mrcooper.com**, and **phenomenon.com**
 - Each project I developed used Angular, Sass, Jade, node.js and Docker.
 - I also helped create a development guideline for standards and best practices.

SapientNitro

Interactive Development Contractor

Boston, MA

Sept 2013 – Dec 2015

- I worked on **Voya's** digital enrollment process.
 - The web application was built using Backbone/Marionette, Gulp, JSPM, Foundation5 and Handlebars.
- I worked on **Ascena Retail Group** e-commerce websites.
 - We developed multiple sub-brands e-commerce websites like **Dressbarn**, **Maurices**, **Lane Bryant**, and **Cathrines**.
 - The front-end was rendered using both JSP and backbone. All of the sites were built mobile responsive, accessible standards, and support IE8+ and modern browsers
- I helped develop a front-end web application for a startup project called **Dropcast**.
 - I worked on CMS web application. The site used Backbone/Marionette, Sass and Restful API.

Arnold Worldwide

Web Developer Intern

Boston, MA

May-Aug 2013

- I worked on a data visualization app called **Brand Velocity** using D3.js, SVG, and jQuery.
